Dear New Mexico Medical Patient,

Being in good health can take a lot of practice.

Because of the nature of chronic health conditions, your provider would like to offer the Medicare Chronic Care Management (CCM) program in order to help you achieve the best possible outcome by coordinating the care amongst your health care providers, which may include the use of electronic communication (phone calls, email, fax), and your 24/7 access to your electronic medical Record via the Patient Portal.

Enrollment in the CCM program is open to those with 2 or more of the following conditions:

- Alzheimer's disease or other dementia
- Atrial fibrillation (Afib)
- Cancer
- Chronic Obstructive Pulmonary Disease (COPD)
- Depression
- Diabetes
- Heart Failure
- High blood pressure
- Other chronic disease(s)

Enrollment in the CCM program is voluntary, and involves:

- Completing the name and date information, below
- An Annual Wellness Visit (AWV) by a qualified clinician
- Copay, as set by your Medicare carrier

Disenrollment from the CCM program can be enacted at the end of the month in which you return the CCM Disenrollment form.

New Mexico Medical is proud to continue to provide your Primary and Urgent care needs.

Thank you for assisting New Mexico Medical in providing you with excellent care.
